

## Definition right/left side of axles

### Axles for “electrical material handling” (Figure 1)

**Left side (Lh):** it is the left hand of the unit considering the vehicle driving direction

**Right side (Rh):** it is the right hand of the unit considering the vehicle driving direction

Figure 1 – Lh/Rh side on axles for electrical material handling

### Axles with pinion (Figure 2)

**Axle left side (Lh):** it is the left hand of the axle from pinion side

**Axle right side (Rh):** it is the right hand of the axle from pinion side

Figure 2 – Lh/Rh side on axles with pinion
